PROFESSIONAL SUMMARY

Motivated Final-Year B.E. Computer Science and Engineering student with a strong passion for Full Stack Web Development and Software Engineering. Skilled in developing responsive web applications using the MERN Stack and building RESTful APIs.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python **Database:** MongoDB, Firebase **Tools & Platforms:** Git, GitHub, VS Code, Postman, Figma, Canva **Concepts:** MERN Stack, Responsive Web Design, Authentication (JWT), CRUD Operations, API Integration

INTERNSHIP

CodingRim Solutions

Web Development Intern

- Developed responsive web applications using React.js, Integrated frontend components with REST APIs.
- Worked on real-world web development projects using modern JavaScript technologies.

Code Galatta

UI/UX Design Intern

- Designed responsive user interfaces and interactive prototypes using Figma.
- Improved user experience through modern UI/UX design principles.

Advantage Pro

Intern

- Assisted in RHCSA and gained practical exposure to industry workflows.

EDUCATION

B.E. Computer Science and Engineering

2022 – 2027

P.S.R Engineering College, Sivakasi

Higher Secondary Examination – 79.5%

2022 Sri Rao Bahadur A.K.D.D.R.Girls' Higher Secondary School, Rajapalayam

Secondary School Leaving Certificate (SSLC) 2020

Sri Rao Bahadur A.K.D.D.R.Girls' Higher Secondary School, Rajapalayam

PROJECTS

AI Integrated College ERP Portal (MERN Stack)

- Developed a role-based ERP system for students and administrators, Implemented secure authentication and RESTful APIs. Managed student records, academic information, and administrative operations using the MERN Stack.

Smart Ticket Management System (MERN Stack)

- Developed a full-stack ticket management system using React.js, Node.js, Express.js, and MongoDB, Implemented JWT authentication, role-based access, and REST APIs for secure ticket management. Designed a responsive interface with features for ticket creation, tracking, and status updates.

Real-Time Emotion Detection System

- Developed an AI-powered emotion detection application using Python, FastAPI, YOLO, and DeepFace. Implemented real-time facial emotion recognition through live webcam input. Displayed accurate emotion predictions with an interactive interface.

CERTIFICATIONS

- Red Hat Certified System Administrator
- MERN Stack Development Training
- UI/UX Design using Figma

EXPERIENCE

- Successfully completed multiple real-world Full Stack Web Development projects.
- Built responsive web applications using modern MERN Stack technologies.
- Developed AI-based applications integrating computer vision and deep learning concepts.

SOFT SKILLS

Problem Solving, Team Collaboration, Adaptability, Communication Skills, Time Management, Quick Learner, Analytical Thinking
